Medical Jurisprudence, or Forensic Medicine, is the science concerned with the application of medical knowledge to certain branches of civil and criminal law. These words come from the eighth edition of Medical Jurisprudence and Toxicology by Glaister, published in 1945, and they go back to the first edition of 1902. In the US, Coroners are being replaced by Medical Examiners, who are medically qualified and sometimes legally qualified as well. Essentially the Coroner is legally responsible for the investigation of...
