Cardiac Nursing (Cardiac Nursing (Woods))

By -

Lippincott Williams & Wilkins, 2004. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: Now thoroughly updated with current, evidence-based material, Cardiac Nursing is recognized as "The Red Reference Book" for nurses caring for patients who have, or are at risk for developing, cardiac diseases. Organized within the framework of the nursing process, this comprehensive clinical reference provides complete information on the assessment, pathophysiology, management, and prevention of heart diseases and details the rationale and evidence for interventions. This edition has seven brand-new chapters on inflammation, atherosclerosis, genetics, heart rate variability, complementary and alternative medicine, disease management models, and nuclear and other scans. Boxes of evidence-based content have been added within chapters where appropriate.

Reviews

Here is the finest publication we have read right up until now. It is actually written in easy words instead of difficult to understand. Its been written in an remarkably easy way in fact it is only right after i finished reading this book in which basically changed me, modify the way i really believe.

-- Prof. Vanessa Smitham V

This pdf will never be straightforward to begin on looking at but really entertaining to read through. I really could comprehend everything out of this composed e pdf. I am just very easily could possibly get a enjoyment of looking at a composed ebook.
